DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, drawn to a method for doing business.

Group II, claim(s) 11-20, drawn to an apparatus.

Group III, claim(s) 21, drawn to a computer readable media.

The inventions listed as Groups I, II or III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The Group II claims contain method claims depending from an apparatus. The Group III claims requires a central hub, while neither the Group I or Group II claims require such. Also, the Group III invention may be used as a paper weight.

2. A telephone call was made to Mr. Steven A. Swernofsky (Reg. No. 33,040) on or about March 30, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
